

Aycliffe Close Bickley

This project was carried out by Craymanor Limited who working closely with the client, sought to design the property to enhance the features of the existing building. This was done by providing a two storey side extension complete with front and rear dormers to match the existing and this, together with other external treatments has now provided this fantastic modernised detached home incorporating a stunning new kitchen and utility room at ground floor level together with a large contemporary master bedroom and en-suite at first floor level. This project offered not only excellent value for money but significantly increased the size of this family home and it's curb side appeal and also the re-sale value which is now significantly more than the expenditure on this project.
