

Sherwood Park Avenue Sidcup

This new house was built on the side of the client's existing home and consists of a large four bedroom end of terrace home, featuring an open plan kitchen, ground floor w.c and good sized lounge at ground floor level with four further bedrooms, bathroom and ensuite at first floor level together with a superb loft conversion on the second floor offering an additional fifth bedroom.

Craymanor Limited was the most competitive of four building contractors who were invited to tender for the building work and we worked very closely with the owners to meet their exacting requirements including the design and addition of the room in the loft and a double garage to the rear of the garden.

The owners of this property have now been able to move into their new home and they have confirmed they are absolutely delighted with the finished building project which represents excellent value for money and this together with the renting out of the extended and refurbished house which now forms part of this terrace, enables the owners to retire and enjoy their new home.
