

# The Woodlands Chelsfield Park

We were delighted to be involved in the design and construction of this stunning stone and brick conservatory to this substantial mock Tudor property in the London Borough of Bromley.

The theme of this bespoke design is for Bath stone lintels, steels and columns which were manufactured to our own exact requirements and in which we set Rosewood effect windows with leaded lights.

The roof of the conservatory also doubled up as a balcony to the master bedroom which was capped in Bath stone coping stones and finished with a stunning Balau hardwood decking.

Mood lighting was installed to the perimeter of the decking which together with the overall design concept, offers a stunning bespoke conservatory and balcony to the master bedroom to this substantial detached house offering excellent design and value for money.
